

FROG 90-DAY GOODBYE PHOS™ DFU

Before applying FROG 90-Day Goodbye Phos

Make sure all pool equipment is working properly, including pump, filter, skimmer and heater.

If recently used FROG Algae Gone™ or FROG 90-Day Algae Barrier™, wait at least 2 weeks before using FROG 90-Day Goodbye Phos.

1. Backwash or clean filter according to manufacturer's instructions.
2. Insert 1 FROG 90-Day Goodbye Phos pod directly to the skimmer basket.

USAGE CHART FOR FROG 90-DAY GOODBYE PHOS	
Any pool 7,500 - 30,000 Gallons	1 pod per month

3. Run pump for 24 hours after adding product.
4. Remove empty pod and discard in trash or offer for recycling if available.
5. Use a new pod every month to keep phosphates from building up.

NOTE: If high levels of phosphates are present when you first use this product, your pool may become cloudy; particulates may drop to the bottom of the pool and should be vacuumed out. Continue to run your pump for 72 hours and backwash or clean the filter if the pressure increases 8-10 psi.

Once pool water is clear, to maintain sparkling water, we recommend using FROG 90-Day Goodbye Cloudy™ (a pool clarifier) to help give your pool that extra sparkle.
